[dilaralmio@gmail.com](mailto:dilaralmio@gmail.com) | [GitHub](#) | [LinkedIn](#) |

### **Objective**

Recent Software Engineering graduate, passionate about Asp.Net backend development. Skilled in Asp.Net, C#, Laravel, PHP and database management with a commitment to delivering efficient solutions. Seeking a dynamic role to contribute and grow in the field.

### **Education**

- Bachelor's Degree Information Engineering, Faculty of Software Engineering, Syrian Private University, **(2020 – 2025)**

### **Courses**

-Programming Advices Roadmap:

24 Courses on SQL, C#, .NET Framework, Data Structures, Win Forms, T-SQL, Problem Solving, REST API **(2023 – 2025)**

### **Freelance Projects**

- **Company Service and Billing Platform [Web Application For Al-mamo Group]**

Worked Individually to build a Small Business Management Web Application

The system is designed for a small company manager to securely record and manage invoices, with access restricted only to the manager. It also allows adding the company's products and services, which are displayed on a public.

Technologies: (Laravel 10, My SQL, HTML, CSS , Java Script , Bootstrap, MVC)

### **Technical projects**

- **Driving & Vehicle License Department(DVLD) [2025/03/05 – 2025/06/15]**

Worked Individually to build a DVLD Desktop Application with feature including crud operations on users, People, Manage License, Tracking Requests of License, include issuing, renewing, replacing licenses

The system also supports 3 types of Tests, Multiple Categories for Local licenses Technologies: (.net framework, SQL, ADO.NET, Sql Server, 3 Tier Architecture)

- **Hospital Management System(HMS) [ 2024/04/15 – 2024/11/24]**

Worked individually to build a Hospital Management System bilingual(Arabic/English) covering patient lifecycle, EMR, outpatient clinics, labs, radiology, billing, Insurance integration, and ambulance management

Technologies: (Laravel(PHP), MySQL, Bootstrap, Livewire, Repository Pattern, Mcamra localization, MVC)

- **Medical Clinic Management [2024/07/04 – 2024/07/14]**

Developed a full-featured clinic management system using Laravel and MySQL, supporting three user roles (Secretary, Doctor, Patient). The system enables appointment scheduling, patient record management, and digital diagnosis. Focused on automating daily operations and enhancing user experience through responsive Blade templates and Bootstrap-based UI

Technologies: (Laravel(PHP), MySQL, Bootstrap, MVC)

### **Skills/Miscellaneous**

**-Back-end:** Asp.net Core, .Net Framework, ADO.NET, PHP, Laravel, LINQ, Web API

**-Database:** Sql Server, Xampp, MySQL, SQL, Transactional SQL

**-Front-end:** Html, Css, JavaScript, WinForms(C#), Laravel Blade, Livewire(PHP), Bootstrap

-Version Control (Git &GitHub)

**-Core Skills:** Problem Solving, Algorithms, Data Structures, SOLID Principles, Self-learning **-Soft Skills:** Team Collaboration, Communication

### **Language:**

Arabic: Native | English: Very Good | Deutsch: Very Good
